

Rutgers Council of AAUP Chapters

American Association of University Professors - American Federation of Teachers

Resolution proposed by Dr. Stephen Bronner and passed by the Rutgers AAUP-AFT Executive Council on January 24, 2007.

Whereas, recruiters are currently bringing on the Rutgers University campus, helicopters, large trucks (which are known as vans or mobile recruiting labs), Hummers, Humvees, and obstacle courses;

Whereas, the practice of bringing such hardware on campus is inconsistent with an academic environment; and

Whereas, the practice of giving free helicopter rides from campus and other uses of this type of equipment poses a safety hazard;

Therefore, be it resolved, that the Executive Council of the AAUP-AFT expresses its disapproval of recruiters being allowed to bring helicopters, large trucks (which are known as vans or mobile recruiting labs), Hummers, Humvees, or obstacle courses to Rutgers University campuses.
