How to get involved in your union

Member involvement is key to building a strong union and winning good contracts for all 8,500 full- and part-time faculty, graduate workers, EOF counselors and Postdocs at Rutgers. You’ve already taken the first step by joining your union. The next step is to act.

To help build a strong union, I am willing to:

___ Become a Department Rep to help convey information between my department and union
___ Become a Peer Mentor for the Equity Committee
___ Recruit my colleagues to join the union
___ Build social justice coalitions with the local community

Our staff will help train and support you in any union involvement!
